Code of Conduct

Message from the Chief Executive Officer

Centerstone has developed and adopted this *Code of Conduct and Ethics* to provide guidance on the standards of patient care and ethical business practices that guide our organization. Centerstone is committed to providing the highest quality of care to our patients. Centerstone strives to achieve this goal through compliance with all applicable laws, regulations, third party payer requirements, and established policies and procedures. Centerstone also believes that our workforce members desire to be affiliated with an organization that demonstrates the highest level of commitment to corporate integrity and responsibility. To ensure that we fulfill these objectives, while operating in a complex and highly regulated health care delivery environment, we have established the Centerstone Compliance Program.

A key element of Centerstone's Compliance Program is our *Code of Conduct and Ethics*, which serves as its foundation. The *Code of Conduct and Ethics* is derived from our mission, and affirms our commitment to the values and professional standards that guide our workforce. We are committed to implementing and complying with the Centerstone *Code of Conduct and Ethics*.

Our success in maintaining Centerstone's principles and high standards requires the support of every individual associated with our organization. If you know or suspect that a law, regulation, policy, or the *Code of Conduct and Ethics* is not being followed, you should report this information. The door is always open if you wish to report or discuss a concern.

To assist you in carrying out your compliance responsibilities, we have designated a Chief Compliance Officer, a Privacy Officer, and Regional Compliance and Privacy Officers. You should reach out to any of them if you have any questions or concerns. In addition, if you prefer, you may call our independent Compliance Hotline to report a concern or make a complaint on a confidential basis. The ways to contact the Hotline follow:

- Telephone Reporting: 1-833-222-4126
- Email Reporting: reports@lighthouse-services.com
- Internet Reporting: www.Lighthouse-services.com/centerstone

Calls to the Hotline can be made anonymously. However, I can assure you that management will not tolerate retaliation for good faith reporting of issues or concerns.

The Centerstone Board of Directors and management pledge our commitment to following and upholding the *Code of Conduct and Ethics* and implementing an effective Compliance Program. Our collective compliance efforts are key to providing high quality services to our patients.

Sincerely,

David C. Guth, Jr.

Chief Executive Officer

Introduction

Centerstone is committed to serving our patients in an ethical, legal, and responsible manner, consistent with our organization's mission and values. We strive to provide high quality services in compliance with all applicable laws, regulations, and guidelines, as well as Centerstone's policies and procedures. Centerstone recognizes its obligation to comply with requirements related to participation in Federal health care programs (e.g., Medicare and Medicaid), including the submission of accurate and complete claims and bills.

The *Code of Conduct and Ethics*, as well as all laws, regulations, Centerstone's policies, procedures, and guidelines shall be observed by everyone in our work environment or acting on behalf of the organization. No one, regardless of position, will be allowed to compromise adherence to the *Code of Conduct and Ethics*, laws, regulations, business standards, policies, or procedures. Failure to comply with the *Code of Conduct and Ethics*, or applicable laws, regulations, policies and procedures can result in serious damage to our standing with patients, as well as legal or regulatory action against the organization and/or individual employees. Centerstone employees found to be in violation of the *Code of Conduct and Ethics* may be subject to disciplinary action (including termination of employment).

If you have any questions about the *Code of Conduct and Ethics*, or about any Centerstone policies or practices, you should raise the questions to a manager or supervisor, the Chief Compliance Officer, or Regional Compliance and Privacy Officer. They are charged with being available and responsive to employees when questions arise about adherence to the applicable laws, regulations, policies, or the *Code of Conduct and Ethics*.

The Centerstone *Code of Conduct and Ethics* is intended to ensure that we meet our compliance goals in today's health care and business environment. It is designed to provide general guidance, and supplement other policies and procedures adopted by Centerstone.

Also included in this term are volunteers, trainees, peers, and other persons whose conduct is under the direct control of COA, regardless of whether and by whom they are paid. The *Code of Conduct and Ethics* applies to all individuals that are either acting or providing services on behalf of COA.
