...and so much more.

MEET YOUR THERAPIST

Centerstone's school-based therapy brings support right to your school, offering individual therapy, family therapy, parenting sessions, and group therapy in a way that's convenient and accessible. I'm also here during **school breaks**—including summer—so students can keep building momentum and making **progress all year long**.

Beyond therapy, Centerstone offers wrap around care for students and families with additional services to meet a wide range of needs. This includes psychiatric services and medication management, case management to connect families with community resources, and intensive in-home services for those who benefit from deeper, more hands-on support.
