

Rapid Risk-Of-Violence Screen

Name _____ Date of Birth _____ Age _____ Gender _____

Diagnosis _____

This is to be completed by a mental health technician or clinician. It is not to be completed by the client. Read the items verbatim to the client (except # 8, which is based upon the assessor's observation). Circle the appropriate response: 0 = item is absent, 1 = item is possibly or partially present, 2 = item is definitely present. Check the source(s) of information used to answer the item. If there are discrepancies between sources of information, describe the discrepancy in the *Comments* section. **PLEASE NOTE: The RROVS is a screening instrument only and NOT a violence risk assessment.**
